erday in an elaborate article, evidently ritten under the inspiration of the dayor himself, intended to show that I the opposition to that gentleman's e-election is of a partisan character, nd results from a willful determinaion to ignore his conspicuous merits is an Executive officer. We presume hat the Mayor is well satisfied with the eulogy pronounced upon him by his organ. It is certainly calculated o make him feel very complacent, suggest, with becoming defernce, that there may possibly be side to the question .t is becoming somewhat apparent hat Mayor Sweeney is not viewed by all the people of this city in the light of the picture drawn by his organ. hose who do not see him as he sees imself, are not merely his political opponents, but comprise not a few of se who belong to the same party with his Honor. The widespread oppo ition to him that is certainly developing itself, is not of a partisan characer, but, on the contrary, proceeds from a general conviction among men of all creeds and all parties, that so far from being the man he is represented to be by his superserviceable sheet, scarce one recognizable feature. The Large numbers of the people, who have heretofore made no sign of opposition o it, are now speaking out their minds,

he does not answer to the picture in day of such attempted humbuggery, so far as the Mayor is concerned, is pastand, unless we greatly mistake present ndications, a wide spread revolt among citizens generally, without distinction of party, is imminent. The Sweeney dynasty has been a wheel within wheel in this city for a long time. There is a common desire, outside of, and wholly irrespective of politics, to see it play out. And we believe that all that is necessary in order to open the eyes of the people to the true nature of the Sweeny machine, is to get that the Governor is a man who will wear, and that the people are beginning to discern from his messages, fro at the facts in regard to it. We dare public acts, and from their intercourse say that the Mayor feels himself quite nvincible in this campaign. He imagines that he has acquired a sort of pre scriptive right to the Mayoralty, and that all that is necessary is to gather his personal partisans together each year, and go through the monotony of a nomination, after which an election follows as a matter of course. To preside tors have been compelled to adat political meetings, to write sounding nessages and inaugurals to the City Council, to be the conspicuous man of the town, has become the chronic ambition of his Honor, and everybody sees it and understands it. The self magnification of office was never more conspicuous than it

has been under the administration of the present Executive of this city.
But leaving these very observable features of the Mayor's official characteristics to one side, we propose to deal chiefly with his record so far as the same may bear upon the points raised by his organ in its article yesterday. We are told that it is to Mayor Sweeney that we are indebted for a reduction of our taxation and our exemption from erime, and for the general economy in city affairs that prevails under his adistration. Such talk is the veriest stuff and nonsense. It will deceive no intelligent man in the city. We undertake to say that Mayor Sweeney in all these respects has been as near a mere negative as it is possible for the executive officer of a city to be. It is well known that his programmes and policies, so "a real desire to further the true interfar as the same have been submitted to the public, have generally been considered product of the true interpublic, have generally been considered product of the true interpublic, have generally been considered product of the true interpublic for ered prodigal, and not infrequently to- gives expression to similar sentiments. tally impracticable. We need not more than mention his great pet scheme for ing from journals which would have establishing a police force of thirty-six given him no quarter during the war, officers. This scheme is emphatically the must be particularly gratifying to Gov. one great "My Policy" feature of his Pierpoint, reign thus far, exceeding, if possible, the dimensions of the twenty-inch water pipe and the "fat take" thereunto appertaining. So far from the unto appertaining. So far from the Mayor having had anything whatever to do with the reduction of taxes, the people of the Old Dominion not heed his facts are that the reduction was made by a Republican Council last year, and no credit whatever for the mitigation of our burdens belongs to the Mayor. And as regards the alleged reforms in And as regards the alleged reforms in the way of peace and good order, exact-ly the same remark will apply. If it has decreased in our midst, it seems very strange that Mayor Sweeney and his personal partisans should gather together and oust from together and oust from position the very man of all others under whose immediate eye and administration this Richmond Dispatch of Friday last: decrease has been effected. Why was Mr. McDonald so ruthlessly slaughtered if what the organ says be true? We submit that theory and practice hang wide apart when such a claim is made under such circumstances. But the reading public know that if crime has decreased in our midst, and better order prevailed within the past two years than formerly, it is more ascribable to the existence of our well-assemble to the effective papers, that Judge Lee, formerly of the Supreme Court of Appeals, "went to west Virginia" soon after the commencement of the late war, was unformed to the Court of Appeals from Harrison county, where he had resided for many placed itself between him and Richmond."

We have always understood that decrease has been effected. deeper we go into the record of the Mayor, the more and more of a carica-graph does the Judge very great injusture does the eulogy of his organ be-tice. The following is the paragraph come. If we had space and time to referred to in the quotation above: come. If we had space and time to bring up his antecedents as connected with the city government, we should go back to the days of 1855, and ask for the facts connected with that contract which so unexpectedly and unaccountably swelled in his hands and in his shop from \$15,000, or thereabouts, to \$44,000. We should also refer to a bill of charges that in 1862 was disallowed and ruled out by the Committee on Water Works, and yet, at a convenient

time thereafter, was mysteriously in-The Next Presidential Election The following is the tenor of the bill introduced in the House of Representaee and passed through the City Council. We should call for full explana. tives by Mr. Wilson, of Iowa, to pretions of that unwonted circum-stance. We should also call for the gal votes for President and Vice-Presiappointment of a committee, armed dent:-

with power to send for persons and papers, to examine the books of the city for the time during which the Mayor has officiated as its Executive, in the most virulent and revolting form, and ascertain just how much it has been worth in the way of jobs in and around the Water Works. And if it should be found to have been a good thing in the way of drippings, we should desire to know why the books should desire to know why the books should desire to know why the books.

it should be found to have been a good thing in the way of drippings, we should desire to know why the books of the city Assessor show a return of but \$250.00 as the sum total of the Mayor's worldly personal estate, including a piano and a horse and buggy, the two latter being valued by him at the modest sum of \$30.00 each. We should furthermore desire to ask the the committee to turn to the files of the INTELLIOENCER for the 8th day of February last, and read therein the high-toned and indignant language in which list Honor refers to and denounces all such returns. The Mayor, in his message of that date, was satisfied in his mind that "household goods, in some fourth" their value. The public generally, we suspect, will concur with him herafter as to one instance of that kind. And they will also agree with him that it "is seriously unjust and oppressive if one is paying the rate on a full valuation, while another pays the same rate on a half valuation." Of course we do not say that this sort of a return on the part of his Honor is not all right and proper, for it is sworn to. It is simply mysterious. That is all.
